IDENTIFIERS *Japan; *United States

ABSTRACT

A bibliography on intercultural nonverbal communication contains citations of interest primarily to Japanese teachers of English as a second language. Citations are organized in these categories: general information; chronemics; proxemics; personal space and territory; physical appearance and clothes; kinesics (posture and gestures); tactile communication; facial expression; eye contact and gaze; paralanguage; sex differences; cultures (Japan, the United States, Western countries, and other countries); comparisons (Japan and the United States, the United States and other countries; and Western and other countries); interracial communication; and nonverbal communication in the classroom. Many of the citations, most of which are from primary sources, contain either ERIC document reproduction service numbers or Michigan State University Library call numbers. (MSE)

Intercultural Nonverbal Communication: A Bibliography

Kenji Kitao

S. Kathleen Kitao

This bibliography on intercultural nonverbal communication has been compiled for Japanese teachers of English who are interested in this field and would like to study to improve their teaching of English to Japanese students. All items are selected from this point of view. However, it is also designed for other people who are interested in this field for the purpose of broadening their knowledge.

In order to make the use of this bibliography easier, the materials have been classified into the subcategories shown in the directory. Materials in each subcategory are listed in alphabetical order by author. Citations that relate to more than one subcategory appear in every relevant subcategory.

This bibliography follows the style of the Publication Manual of the American Psychological Association (3rd ed.). However, if the information is available, authors' or editors' first names are included for the convenience of those who need to use the MLA style sheet.

Most of the items listed in the bibliography are from primary sources. However, we included some very useful items that we know of, even if we do not have access to them at this time. Those were taken from other bibliographies, and the first names of authors or editors may not be spelled out.

A list of journals and books frequently referred to in this bibliography appears on pages 4-7.

For the convenience of those with access to the Michigan State University library, we have included the library call number after citations for books, if they are available at the library. If they are not available there, we put NA. Call numbers of journals appear on the list of journals.

Directory

1. General 8

2. Chronemics 15

3. Proxemics 17

4. Personal Space and Territory 19

5. Physical Appearance and Clothes 21

6. Kinesics (Posture & Gestures) 22

7. Tactile Communication 28

8. Facial Expression 30

9. Eye Contact and Gaze 32

10. Paralanguage 34

11. Sex Differences 36

12. Cultures 38
